Task1: Android application

First page of application:

Here when I click on retrive Data file automatically saves in sdcard.

Task 2: Motion recognition:

Files for training and testing are extracted. **But glassfish is not working, so unable to complete lab4**

File m_l_r.txt, m_t_b.txt, m_test.txt, m_r_l.txt are uploaded to github.

Error screen shot
